

# The California Council for Environmental & Economic Balance

THE CALIFORNIA COUNCIL FOR ENVIRONMENTAL & ECONOMIC BALANCE (CCEEB) is a coalition of California business, labor, and public policy leaders who work together to advance collaborative strategies for a sound economy and a healthy environment. CCEEB was created a quarter of a century ago by the late Governor Edmund G. "Pat" Brown because he and other key leaders believed that new thinking was needed to effectively address challenges facing California. As the only statewide private, non-profit, nonpartisan association to represent the interests of both industry and labor, CCEEB takes great pride in its ability to achieve results by bringing creative and effective solutions to the forefront of policy debate.
